U.S. International Development Finance Corporation

One-page brief

Priority: 29 of 33 (score 2.1). **FY2026 outlays:** $1.6B (USAspending). **As of:** 2026-10-27. Public data only.

Bottom line

DFC lends to, insures and invests in private projects abroad. Outlays are small, but its budgetary resources ($10.4B) and exposure on loans are much larger. The fraud risk is borrowers who misstate ownership, use of funds or project status. Public project data supports a light-touch screen of borrowers and sponsors.

Exposure

- $1.6B in outlays and $10.4B in budgetary resources in FY2026.
- Loan and guarantee exposure well above annual outlays.

Public data we can use

- **DFC active projects list:** borrower, sponsor, country, amount.
- **USAspending** obligations; **SAM.gov** exclusions; OFAC sanctions lists.

Detection plays

1. **Sponsor screen:** borrowers or sponsors tied to sanctioned or excluded parties, or to shell companies in secrecy jurisdictions.
2. **Concentration:** repeat borrowers with shared owners across “separate” projects.

First prototype

A sponsor and borrower sanctions and exclusions check over DFC’s project list.

Limits

Beneficial ownership of foreign borrowers is rarely public.
