PRIORITY 29 OF 33 · SCORE 2.1

Development Finance Corporation

DFC lends to, insures and invests in private projects abroad. Outlays are small, but its budgetary resources ($10.4B) and exposure on loans are much larger. The fraud risk is borrowers who misstate ownership, use of funds or project status. Public project data supports a light-touch screen of borrowers and sponsors.

INVESTIGATIONS WE PROPOSE

DFC-1 Borrowers and sponsors matched to sanctions, exclusions and offshore leaks. **First prototype.**

DFC-2 Shared owners across "separate" projects.

EXPOSURE

- $1.6B in outlays and $10.4B in budgetary resources in FY2026.
- Loan and guarantee exposure well above annual outlays.

PUBLIC DATA WE USE

- **DFC active projects list:** borrower, sponsor, country, amount.
- **USAspending** obligations; **SAM.gov** exclusions; OFAC sanctions lists.

HOW WE DETECT IT

1. **Sponsor screen:** borrowers or sponsors tied to sanctioned or excluded parties, or to shell companies in secrecy jurisdictions.
2. **Concentration:** repeat borrowers with shared owners across "separate" projects.

FIRST PROTOTYPE

A sponsor and borrower sanctions and exclusions check over DFC's project list.

OUR REVIEW, DELIVERED WEEK 12

Sanctions and exclusions check of every borrower and sponsor in DFC's active projects list, plus ICIJ Offshore Leaks and OpenSanctions matches for shell structures.

Every lead goes to an Inspector General or DOJ as a referral package with sources and caveats. Nothing is published.

WHAT WE ASK OF DFC

Phase 2 data: Partner financial reports, beneficiary lists, borrower KYC.

What it enables: Diversion and ghost beneficiaries; borrower ownership.

Access route: Each OIG.

LIMITS

Beneficial ownership of foreign borrowers is rarely public.

SOURCES

- DFC active projects
- USAspending agency profiles (FY2026 outlays)

Scores and plans are our judgment from public sources. Risk indicators are leads for Inspectors General or DOJ, not accusations.
