Executive Office of the President

One-page brief

Priority: 33 of 33 (score 1.3). **FY2026 outlays:** $0.85B (USAspending). **As of:** 2026-10-27. Public data only.

Bottom line

EOP spending is small and mostly staff and operations, so it is not a fraud target. EOP matters as a sponsor: OMB sets improper payment and fraud risk policy for every agency, and the President launched a nationwide anti-fraud task force by executive order in March 2026. Treat EOP and OMB as the audience for the government-wide proposal, not as a subject.

Exposure

- $0.85B in outlays in FY2026. Includes the Office of National Drug Control Policy's grant programs (HIDTA).

Public data we can use

- **USAspending** for EOP grants and contracts.
- **PaymentAccuracy.gov** (run by OMB) for government-wide improper payment data used across this set.

Detection plays

1. **HIDTA grant screen:** the shared grantee checks applied to ONDCP grants.

First prototype

None proposed. Use this set and the ranking as the briefing for OMB.

Limits

Little public program spending to analyze.

Who to take it to

Geodesic Solutions: geodesic.pro *Contact: Steve Taylor, Managing Partner: taylor@geodesic.pro*

OMB Office of Federal Financial Management (payment integrity policy).
